## Summary

---

I am a passionate Full Stack Web Developer with expertise in building scalable, AI-ready, and high-performance web applications across frontend, backend, cloud, and automation ecosystems. Skilled in modern web technologies, API-driven architectures, workflow automation, and intelligent platform integrations to deliver secure, user-focused digital solutions. Experienced in leading development teams, optimizing application performance, and implementing scalable systems that support business growth, automation, and AI-powered experiences.

## Skills

---

### Web Development & AI-Ready Solutions

- Full Stack Development using WordPress, PHP, JavaScript, TypeScript, HTML5, CSS3, jQuery, Laravel, and CakePHP
- Custom WordPress development including plugins, themes, WooCommerce, and headless CMS architectures
- AI-integrated web solutions, API-driven applications, automation workflows, and intelligent user experiences
- Frontend performance optimization, responsive UI/UX implementation, and cross-browser compatibility
- RESTful API integration, third-party platform connectivity, and scalable application development
- Modern development practices with reusable, modular, maintainable, and scalable code architecture

### Backend, Architecture & Automation

- REST API development, backend system architecture, and server-side application design
- Authentication systems, authorization workflows, and secure session handling

- Workflow automation, cron job management, and process optimization
- Caching strategies, application scalability, and backend performance optimization
- Integration of payment gateways, external services, and cloud-based platforms

### Database & Data Management

- MySQL, PostgreSQL, MongoDB, and relational database architecture
- Database optimization, query tuning, migration handling, and backup management
- Structured and scalable data handling for high-performance web applications

### Cloud, DevOps & Deployment

- AWS server setup, deployment, monitoring, and maintenance
- Docker containerization and CI/CD pipeline implementation
- Git-based version control, Bitbucket repository management, and deployment workflows
- Environment configuration, server optimization, and scalable hosting management

### Security, Optimization & Maintenance

- Website security audits, malware detection/removal, and application hardening
- Performance optimization, uptime monitoring, and disaster recovery planning
- SEO-friendly development practices and technical optimization for better search visibility
- Debugging, troubleshooting, and full-stack issue resolution

### Leadership & Collaboration

- Technical documentation and project planning
- Team leadership, developer coordination, and client communication
- Requirement analysis, solution planning, and agile development collaboration

## **Experience**

---

### Taaza Tech pvt. ltd. – FULL STACK WEB DEVELOPER & TEAM LEAD

- Developed scalable, reusable, and maintainable web applications using modern full stack technologies
- Analyzed application requirements and translated business needs into efficient technical solutions
- Designed, optimized, and maintained databases for performance and scalability

- Built custom plugins, extensions, and feature enhancements for web platforms and enterprise applications
- Integrated payment gateways and third-party APIs into eCommerce and service-based platforms
- Established coding standards and implemented best practices for development workflows
- Managed seamless integration between frontend interfaces, backend systems, and data storage solutions
- Enhanced application performance, security, and reliability through continuous optimization and maintenance

#### **TECHMAGNATE – TEAM LEAD: FULL STACK WEB DEVELOPER & TEAM LEAD (02/2019 to 02/2023)**

- Collaborated with clients to gather business requirements and deliver scalable web solutions
- Designed and developed high-performance frontend and backend architectures for dynamic websites and web applications
- Planned SEO-friendly website structures, page hierarchies, and optimized user experiences
- Managed backend systems including databases, server integration, and application workflows
- Developed custom WordPress themes, plugins, and reusable modules from scratch
- Improved website speed, security, responsiveness, and overall application performance
- Led development teams, assigned technical tasks, and maintained coding standards across projects
- Integrated third-party APIs, payment gateways, and cloud-based services for business automation

#### **XICOM TECHNOLOGIES – SENIOR SOFTWARE DEVELOPER (06/2016 to 02/2019)**

- Analyzed website and application requirements to develop scalable backend solutions
- Developed custom WordPress plugins, backend modules, and dynamic web functionalities
- Built optimized backend portals with structured and high-performance database systems
- Integrated APIs, data storage solutions, and external services into web applications
- Performed debugging, troubleshooting, and issue resolution across applications and servers
- Conducted application testing, feature optimization, and performance improvements
- Enhanced existing application features and maintained stable production environments

## PHOENIIXX DESIGNS PVT. LTD. – SOFTWARE DEVELOPER (01/2015 to 06/2016)

- Developed custom websites and responsive web solutions based on client requirements
- Managed content migration and WordPress implementation for multiple business websites
- Performed website maintenance, updates, and technical support activities
- Implemented website security enhancements and compliance-related improvements
- Assisted in frontend customization, backend integration, and performance optimization

## IT Exposure

---

- Operating Systems: Windows, Linux
- Development Tools: VS Code, Sublime Text, Git, SVN, SSH, MySQL Workbench
- Version Control & Deployment: Git, Bitbucket, CI/CD workflows
- Server & Cloud Tools: AWS, Docker, Linux server management

## Education

---

- 10th & 12th – Assam State Board (SEBA) | 2007 – 2009
- Bachelor of Technology (B.Tech) in Computer Science – Maharishi Dayanand University, Rohtak | 2011 – 2015
